ABOUT ME

Frontend Engineer | React, TypeScript | Cross-Platform & Native Development

Frontend Engineer with 7+ years of experience building and optimizing web, cross-platform, and native applications across consumer streaming, gaming, and FinTech. Experienced in React, TypeScript, React Native, and native iOS development. Strong background in frontend architecture, performance optimization, and end-to-end feature ownership. Proven ability to collaborate with product, design, backend, and platform teams to deliver reliable, accessible applications across multiple platforms.

EDUCATION AND TRAINING

Master's Degree in Informatics

State University of Moldova [01/09/2022 – 10/06/2024]

City: Chisinau | **Country:** Moldova

Bachelor's Degree in Business & Administration

Academy of Economics (ASEM) [01/09/2009 – 31/05/2011]

City: Chisinau | **Country:** Moldova

WORK EXPERIENCE

Crunchyroll – Chisinau, Moldova

Software Engineer (Frontend / Game Consoles)

[01/06/2021 – 05/07/2026]

Key Achievements:

- Accelerated deployment velocity by 50% by successfully transitioning the engineering organization from an ad-hoc release cycle to a highly structured, 2-week sprint release train.
- Spearheaded the major architectural rewrite from React Native to React.js, significantly improving application performance, stability, and long-term maintainability.
- Integrated a custom AI-based localization automation library (cr-ai-translator), streamlining translation workflows and drastically reducing manual engineering effort.

Core Responsibilities:

- Led a major migration from React Native to React.js to address performance constraints on PlayStation 4 and improve application maintainability.
- Owned frontend feature delivery from requirements discovery through implementation, testing, release, and post-release support.
- Partnered with Sony engineers to investigate platform-specific issues, integrate native APIs, and meet console certification requirements.
- Delivered cross-platform product features, including livestream support, closed captions, video player integrations, and global UI improvements.
- Improved console release workflows through GitHub Actions and CircleCI automation, including build, test, and packaging processes.
- Integrated an AI-based localization automation library to streamline translation workflows and reduce manual engineering effort.

Endava – Chisinau, Moldova

Frontend Engineer

[01/03/2020 – 10/05/2021]

- Spearheaded the development of complex FinTech and Crypto web applications using React, TypeScript, and modern modular UI architectures.
- Modernized core application architecture by migrating from legacy class-based components to functional components with React Hooks, successfully decoupling business logic.
- Architected highly reusable UI component libraries while implementing critical frontend performance optimizations.
- Facilitated Agile collaboration with UX/UI designers, backend teams, and Product Managers to deliver seamless, high-quality user journeys.

Endava – Chisinau, Moldova

iOS Software Engineer

[02/10/2016 – 06/08/2018]

- Engineered, tested, and maintained production-grade iOS applications utilizing Swift and Objective-C.
- Integrated mission-critical third-party services (e.g., Firebase), architected offline storage solutions, and crafted bespoke navigation flows.
- Mentored junior engineers and interns, significantly improving internal documentation and streamlining the onboarding process.
- Led a mobile development team.
- Collaborated seamlessly with distributed global teams across design, product, and backend engineering.

LANGUAGE SKILLS

Mother tongue(s): Russian

Other language(s):

English	Romanian
LISTENING C1 **READING** C1 **WRITING** B2	**LISTENING** B2 **READING** B2 **WRITING** B2
SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2	**SPOKEN PRODUCTION** B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Languages

TypeScript / JavaScript / IOS(Swift) / Objective-C / CSS & HTML

Frontend Technologies

React, React Hooks, React Router, React Native, SCSS, Tailwind CSS, Styled Components, CSS Modules / Responsive design / Cross-browser compatibility

Architecture & Design

Feature-Sliced Design (FSD) / Clean Architecture / Web Accessibility (ARIA, WCAG) / SOLID Principles / Object-Oriented programming / Design Patterns.

State Management

Redux Toolkit, React Query, MobX, RxJS, Recoil

DevOps & Tooling

Webpack, Git, GitHub Actions, CircleCI, CI/CD for Consoles

Testing

Jest, React Testing Library / Vitest

AI Tools

Github Copilot / Cursor / Claude Code / AI-Assisted Development

Design & Collaboration Tools

Figma & Sketch / Version Control (Git)

APIs & Integrations

axios / Postman / REST APIs
